EVIE MELHUISH

Game Designer · 3D Artist / Animator · UI Designer

Wellington, NZ | 021 0893 7939 | melhuishevie@gmail.com | eviemelhuish.com | bionicreader.itch.io | github.com/BionicReader

Professional Summary

Designer and developer with a BSc in Computer Science and Computer Graphics and Games, now completing a Graduate Diploma in Design Innovation at Victoria University of Wellington. I have a wide range of skills across the creative pipeline, from design and 3D modelling and animation to UI and digital design, and I learn new tools quickly. I'm confident both leading a team and following one. I'm looking to join a creative team where I can contribute across design, art and development, keep growing my skills, and help ship work people enjoy.

Skills

- **Game design & development:** Godot 4 (GDScript), Unreal Engine 5, VR (Meta Quest), Git/GitHub
- **3D & animation:** Blender modelling, rigging and animation; 2D asset creation
- **Digital design:** Figma UI/UX prototyping, HTML/CSS, Procreate, Twine and Inky narrative tools
- **Leadership & communication:** managed a 6-person team (3 developers, 3 artists); photography award-winner

Education

- **Graduate Diploma in Design Innovation (Game Design)**, Victoria University of Wellington - In progress
- **Bachelor of Science (Computer Science, Computer Graphics and Games)**, Victoria University of Wellington - 2025
- **NCEA Level 3 with Excellence**, Wellington Girls' College - 2022

Recent Projects

The King's Messenger · Head Developer · Godot 4 · 2026 | Delivery-simulation side-scroller across five villages. Led 3 developers and 3 artists through a full production cycle; released for Windows and macOS.

We Have A Problem · Developer · Godot 4 · 2026 | Two-player co-op sci-fi escape game: one player runs the ship console, the other uses the manual to match cryptic system reports to repair instructions.

Darker · Solo Developer · Unreal Engine 5 · 2025 | Psychological VR horror for Meta Quest, built in 13 weeks. Designed narrative progression, VR interactions and a render-texture security camera puzzle.
